

DonorsChoose.org is the nonprofit classroom funding site for teachers

It's easy for teachers to get the exact materials they need.

There's a strong community of donors and partners who are eager to fund projects, even from teachers they don't know.

It's built exclusively for educators to help them succeed in the classroom.

Help Our School Garden Thrive

My students need raised bed planters and garden tools to grow our school garden into an outdoor classroom and sustainable food source!

My Students

When was the last time you learned something so interesting that you couldn't stop talking about it? Learned what your belly heard? Mastered a new skill after practicing every day? Made a connection that opens your eyes and changed your whole perspective? This happens every day in our classrooms.

Growing up in Newark, NJ, many of my scholars were not death the easiest hand in life.

But this has never stopped them. My scholars are some of the most

Build momentum for your project. Share it with your friends and family!
